

# Fibonacci Whirling Squares

Karen Halbert Artist  
www.karenhalbert.com

A tiling with **squares** whose side lengths are successive Fibonacci numbers: 1, 1, 2, 3, 5, 8, 13 and 21

**Material** Watercolor  
**Size** 21x34 Aspect Ratio 1.619...  
**Price**

This rectangle measures 21x34, where 34 is the next term in the sequence (since  $34 = 21 + 13$ ). Note the use of the lower right polar point ("eye") of the implied spiral here.
